

Invisalign® Photo Uploader mobile app

Now your mobile device can help streamline the creation of new Invisalign patient records, take and upload high-quality photos directly to your patients' records on the Invisalign Doctor Site.

Streamlined, digital work flow

Managing Invisalign patient records has never been easier! The Invisalign Photo Uploader mobile app facilitates:

- Creating new Invisalign patient records
- Taking high-quality patient photos for all treatment stages without the need for a specialized camera or photo editing.

- Uploading photos to the patient record on the Invisalign Doctor Site.
- Exporting individual and composite photos to other mobile apps.

High-quality patient photos

Your team can take high-quality photos with the guided process in the mobile app. Simply align the patient dentition within the app's blue template and snap the picture! The app is optimized to:

- Improve photo's focus on teeth, not lips, tongue or cheek retractors
- Detect a patient's smile
- Trigger flash
- Automatically upload images into your Invisalign Doctor Site

Consistent photos every time

The Invisalign Photo Uploader mobile app guides you through a step-by-step process to take perfect patient photos without special training. The app provides real-time feedback on photo quality and automatically crops and sizes photos to minimize the need for retakes and photo editing.

The Invisalign Photo Uploader app guides you through steps to quickly set-up a patient record, take photos, then automatically load patient information and photos into your patient's record on the Invisalign Doctor Site.
